III. Karen Berry McCool (Web Manager), Steve Henry (Assistant Web Manager)
IV. Board Action Required: None
V. BRIEF SUMMARY OF ACTIVITIES
   a. **Web Site Support for MLA Members.** Over the last three months, the Web Team (primarily the Web Managers and Web Committee Chair) have resolved 61 tickets through the Freshdesk ticketing system. This has included routine requests and questions that come in through the webeditor or our individual/personal emails.
   b. **WordPress Sites Migration.** The Web Managers worked with Reclaim Hosting to migrate the WordPress sites from Site 5 to Reclaim Hosting. The move was seamless to users and merely resulted in the backend of the sites being inaccessible for a few hours.
   c. **2023 Annual Meeting.** Both the Web Manager and Assistant Web Manager have continued to serve on the planning group for the 2023 annual meeting.
   d. **2022 Video Captioning.** The Web Team has been working on uploading videos of 2022 conference sessions to Vimeo, and coordinating with 3Play for caption editing. While well behind schedule, the videos will be available by the end of September, in line with the end of the 6-month embargo period.
   e. **MLA GitHub Account.** At the request of the Cataloging and Metadata Committee, the Web Team is now hosting a GitHub environment for Committees to use for collaborative editing and other projects. Individual spaces will be managed by Committees, but the overall MLA account is now managed by the Web Team.
   f. **Chapter (and other) websites.** Given that many regional Chapters across the Association have multiple and/or outdated websites, the Web Team, with the help of the Web Committee, is working on migrating all Chapter sites to WordPress. This is in the context of a larger effort to migrate our web presence away from YourMembership and toward WordPress, and will also include the creation of websites for the Oral History Committee and other groups across MLA.
