I. January 22, 2021

II. Emerging Technologies and Services Committee (ETSC)

III. Members: Amy Jackson (chair), Steve Henry (Member, ex-officio), Michelle Urberg, Melanie Zeck, Beth Thompson, Ellwood Colahan, Tiffany Gillaspy, Christopher Schiff

IV. Board Action Required: None

V. Brief Summary of Activities

**TechHub 2021**
The committee is currently working on its accepted session for the 2021 Annual Meeting - TechHub. Originally envisioned as a drop-in session with a variety of simultaneous technology-related discussion groups, the committee needed to redesign the session for online delivery. Due to the attendance at TechHub 2020 (in Norfolk), the committee decided that managing breakout rooms for 50 attendees would be too cumbersome, and instead opted for 10 minute pre-recorded presentations with a 5 minute live Q&A. The committee analyzed results from the 2019 ETSC survey of the MLA membership, and determined tools that would be likely to generate the most interest. The final list of topics and presenters is:

- Omeka overview by Anna Kijas
- NVIVO overview by Christopher Schiff
- Introduction to Sibelius/Finale by Tiffany Gillaspy
- Intermediate MuseScore by Marc Sabatella
- Data sonification by Woody Colahan
- Score reading equipment overview by Beth Thompson

**OA presentation at MLA 2021**
ETSC agreed to co-sponsor a program to be presented at MLA 2021 by Matthew Vest and Ashley Peterson on the OA publishing project they have been working on with the Kaleidoscope Chamber Orchestra.
