I. May 15, 2023

II. Emerging Technologies and Services Committee (ETSC)

III. Members: Amy Jackson (chair) (2024), Ellwood Colahan (2024), Tiffany Gillaspy (2024), Christopher Schiff (2024), Kathy Essmiller (2025), Karen Berry (ex-officio) (2024), Nurhak Tuncer (2026),

   Nominated new member: Marianna Czeisel

IV. Board Action Required: None

V. Brief Summary of Activities:

**TechHub 2023**
The committee hosted TechHub at the 2023 Annual Meeting. This consisted of a drop-in session with a variety of simultaneous technology-related discussion tables, including:

- Twine (Woody Colahan)
- Intro Audacity Realtime Effects (Tiffany Gillaspy)
- PressBooks (Kathy Essmiller)
- Caption editing software (Karen Berry)

Attendance was lower than previous TechHubs, and the committee is brainstorming ideas for more engagement. One option is to offer lightning talks at the beginning of the session and move to tabletop discussions after the lightning round.

**ETSC blog**
The committee started a blog hosted by the Humanities Commons. Topics and authors have been identified, and the committee started an initial marketing push in March.

**Business meeting, March 8, 2023**
Minutes

**Future projects**

- The committee will propose another TechHub at MLA 2024
- The committee is exploring options for a Wiki-edit-a-thon at MLA 2024
- The committee is also exploring Data Carpentry or Wikidata as a pre or post session at MLA 2024

VI. Alignment with the MLA 2022-2030 Strategic Plan Objectives
The activities of ETSC align with Goal 2: Develop and Retain Membership. Through various educational opportunities we provide members with opportunities for connection and career development through the year.

VII. Implicit Bias Testing Reporting: all members have completed implicit bias training
