In January 2001, The New Grove Dictionary of Music & Musicians, second edition became the world's premier authority on all aspects of music when it was published in print in 29 volumes and online at grovemusic.com. In Fall 2001, Grove's will welcome a new title to its music library, the completely updated and revised New Grove Dictionary of Jazz, second edition, edited by Barry Kernfeld. Jazz Grove II will include enhanced coverage of modern jazz artists from the 1980s and 1990s, and new perspectives on jazz and film, jazz and women, and jazz and cultural studies.

Your subscription to grovemusic.com now gives you full access to an integrated music resource including The New Grove II and Grove Opera, and coming in early 2002, the addition of The New Grove Dictionary of Jazz, second edition!

"As the new online version of a major reference work for music, The New Grove Dictionary of Music and Musicians on the web is an important tool."

—Constance A. Mayer, Library Journal

"...anyone with a serious interest in music, whether classical, popular, ethnic or jazz, will benefit from this reference work's acquaintance...Nothing remotely as comprehensive or so extensively researched exists...."

—William Linder, The Toronto Star
