YOUR SOURCE FOR OUTSTANDING MUSIC!

• For over four decades A-R has published critical editions for performers and scholars.

• Our Recent Researches series encompasses music from the middle ages through the early twentieth century, especially the Renaissance and Baroque eras, and including oral traditions.

• Chant, motets, masses, madrigals, lute music, trio sonatas, and other genres are available in our editions.

• Performance parts are available for many editions—please inquire.

Some comments about our editions:

"In seven different series they are pumping out music at a rate that makes even the glory days of Corpus Mensurabilis Musicae seem tame. At the same time they seem also generally to maintain the highest standards and to present music in the sanest way possible."

—David Fallows, Early Music

About the Complete Motets of Orlando di Lasso: "This is a superb edition of Lasso's motets, highly recommended to scholars, students, and performers."

—Jessie Ann Owens, Notes

About Fortuna Desperata: Thirty-Six Settings of an Italian Song, edited by Honey Meconi: "...as a data-bank on Fortuna Desperata this can hardly be bettered. . . ."

—Fabrice Fitch, Early Music
