- 4) Tap on the “Autofill” setting and ensure the “Names & Passwords” option is set to “ON”. If it is not, tap the “OFF” indicator, and it should slide over so that “ON” is showing. Once this is all set, tap the Safari arrow in the top-left to return to the previous menu.

- 5) Tap on the “Accept Cookies” setting and ensure that the “From visited” option is checked.

- 6) Push the Home button on your device to exit the settings menu.
