Location: Florida Exhibition Hall C
Powered by Dow Jones Foundation

The NABJ High School Journalism Workshop (JSHOP) is a five-day workshop for local high school students in the host city of NABJ's Annual Convention and Career Fair. The JSHOP's goal is to provide an enlightening, informative, hands-on, and challenging introduction of the journalism profession to a multicultural mix of high school students. The workshop provides interactive learning opportunities through lectures, presentations, hands-on training and field trips. The students learn journalism fundamentals for newsgathering, writing, photography, video production, radio, graphic design, editing, and social media. Professional journalists, educators, and journalism college students provide mentorship and supervision.

By the conclusion of the workshop, participants will leave with a portfolio of professionally-developed media products including articles, photographs, and video clips. Also, the students will have a greater sense of what the journalism profession entails and a strong foundation with which to possibly pursue journalism at their high schools, in college, and as a career.

Science Journalism 101

Location: Sanibel 1-2

The African-American community's relationship with STEM (science, technology, engineering, and math) has been fraught with challenges. Opportunities to report on recent discoveries at local colleges or by African-American scientists has largely been overlooked by the media, including media outlets, targeted at this audience. Additionally, lack of news coverage by Ethnic News organizations on important topics such as energy, the environment, technology, product safety, personal health and other science topics is partly due to the unease general news reporters may have in covering science-intensive stories.

While it is impossible for a reporter to be an expert in all areas of science, it is entirely possible for a reporter to develop a network of science consultants that can greatly broaden the diversity and depth of one's reporting. This workshop will focus on helping reporters cultivate relationships with media-ready African-American scientists and engineers.

Writing On The Fly: Mastering Multimedia Storytelling

Location: Tallahassee 1-2

Multimedia journalists are now charged with doing it all. The most successful can write Web copy, write a broadcast script, take photos, post to the Web, update social media, shoot video and report from the field. Key to all of this is good writing. But can the need for speed lower the quality of a multimedia journalist's writing? Journalists offer tips for writing quickly without abandoning clear, concise and masterful storytelling.

Healthy NABJ: Effectively Covering Mental Health

Location: Sanibel 1-2

Journalists often struggle with how to report about mental health accurately, ethically, sensitively and responsibly. Many will avoid reporting about it altogether, but the media can play a powerful role in educating the public about mental health, including common causes of mental health issues, common symptoms, trends in suicide rates and effective treatment advances. This presentation will provide journalists with research-based best practices for reporting about this important national health problem.

A Fight to Deliver Our Message by Any Means Necessary--Powered by the Africa Channel

Location: Destin

It's not news that the media landscape of 2013 is changing rapidly. From local content delivery to mobile phones to YouTube to Amazon to apps, we're currently undergoing the most rapid shift in reaching our audience since we leaped from radio to television in the 40s. THE AFRICA CHANNEL, the only network devoted exclusively to showing positive modern images of Africa and the Diaspora, is traversing these digital waves of change every minute of every day in an effort to reach every Black household on the planet. Our goal with the luncheon is to share strategies and insights from THE AFRICA CHANNEL's own journey in an attempt to help each NABJ member be better prepared for the media challenges ahead.

American Promise: A National Effort to Advance Black Male

Achievement—Powered by American Documentary/POV

Location: Osceola

In 1999, Filmmakers Michele Stephenson and Joe Brewster turned cameras on two families — including their own— as they grappled with the ups and downs of preparing their sons for academic success. At the time, they weren't quite sure where the project would take them. But as they navigated the education system and wrestled with the same questions most new parents face, they knew that they had a story to tell. They also knew that, as black boys, their sons' futures were riddled with extra hurdles: they would be twice as likely as their white counterparts to be held back in school, three times as likely to be suspended and half as likely to graduate college. And both sets of parents were fiercely committed to doing everything in their power to defy those odds.

Miles Montego (Ja Rule) has it all - cars, boats, good looks, mansion, money, women, but more importantly, he has a past. Miles is a retired high level drug trafficker who is now completely legitimate. Even though Miles has turned over a new leaf, the DEA can't seem to let him out of their sights. Miles' only downfall is that he is extremely loyal to his circle of friends and former colleagues who are not retired from the lucrative business. Struggling to keep on the right side of the law, Miles meets the one girl of his dreams but she's not the usual type of girl that he's used to dating. Vanessa (Adrienne Bailon) is a church girl in every sense of the word. They are tested to their last ounce of faith and strength in God and each other.

**Healthy NABJ Professional Development Breakfast: The Health Insurance Marketplace Exchange –
Powered by Kaiser Permanente**

Location: Osceola B

One of the major key pieces of the Affordable Care Act was the creation of The Health Insurance Marketplace. It is designed to make buying health coverage easier and more affordable. Starting in 2014, the Marketplace will allow individuals and small businesses to compare health plans, get answers to questions, find out if they are eligible for tax credits for private insurance or health programs like the Children's Health Insurance Program (CHIP), and enroll in a health plan that meets their needs. It is the role of journalists to educate their audiences with accurate information and debunk myths and misinformation on this Health Marketplace. We are honored to welcome key administration officials to describe the Marketplace and highlight resources available to journalists.
