

Outsourced Risk Management Solutions LLC

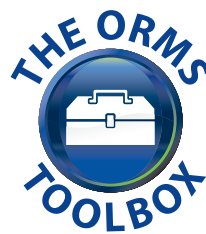

*Due Diligence. Done Simply. Done Right.*

As a trusted risk advisor, business partner and advocate, Outsourced Risk Management Solutions (ORMS) helps lenders effectively and efficiently manage their environmental risks, enabling our clients to do what they do best: focus on their customers, core business and the pursuit and development of new business opportunities.

ORMS helps clients manage their property risk program by evaluating, developing, implementing and monitoring their due diligence policies and procedures. In doing so, ORMS:

- Brings market knowledge and expertise in the financial services and environmental industries, and strong relationships with regulators.
- Orders, screens and evaluates environmental reports.
- A nationwide network of due diligence specialists to ensure clients get the right person for the task at hand.
- Conducts technical and non-technical appraisal reviews for lenders.
- Works as a natural extension of our clients to enable you to do more with less.
- Utilizing ORMS provides a program to help lenders conduct due diligence on real estate to remain competitive and to ensure environmental issues at properties are fully understood.

ORMS will tailor your toolbox to ensure you get and pay for what you need — not what you don't need.
