NADCO Members,

As we all work together to help small business owners better understand the new programs that will be available to them soon, the U.S. Senate Committee on Small Business & Entrepreneurship has created a comprehensive guide available on their website. The guide provides information about the major programs and initiatives that will soon be available from the Small Business Administration.

NADCO will continue to update resources and information on the NADCO COVID-19 page. As we continue to work with leaders at the agency and on the Hill regarding the details of the CARES Act and how these provisions will be implemented with the loan programs, we will provide guidance.

Continue to stay safe,
