Loan origination system

Simplified SBA lending from start to finish

With Cirrus' loan origination system (LOS), streamline lending operations with the first end-to-end SBA lending platform. Seamlessly integrate underwriting, closing, servicing, and reporting with Cirrus's signature document orchestration platform to gain faster look-to-book, a better borrower experience, more satisfied teams, fewer compliance gaps, and increased visibility into operations.

Everything you need for effortless lending and loan management

Cirrus's LOS connects with its application and document orchestration platform bringing underwriting, closing, servicing, and reporting functionality under one roof. Say goodbye to multiple systems that just aren't in sync and experience lending technology that's truly end-to-end.

Additional LOS features for Cirrus subscribers

Underwriting

- Intelligent spreading: Intuitive manual spreads or automate with Flashspread™
- ETRAN integration
- In-platform communications tools and task lists to keep your team organized
- Custom credit memo creation
- Collateral tracking
- Project costs and funding sources tracking
- Data feeds straight from customer application into underwriting. No re-entry.

Servicing/Closing

- Scheduled ticklers/requirements/checklists
- Risk rating updates
- SBA 327 generation

Reporting

- Customizable templates for diverse management reporting needs
- Custom dataset creation for ad hoc reporting capabilities
- Excel exports available
