NOW GET TO KNOW US.

Short for the National Shippers Strategic Transportation Council, NASSTRAC is THE association for transportation and logistics professionals who manage freight across all modes.

We began in 1952 and today, NASSTRAC represents freight decision-makers who are mid- to upper-level management across many industries, from manufacturers and retailers to wholesalers and distributors throughout the U.S. Many industries are represented, including food and beverage, consumer goods, retail, manufacturing, pharmaceutical and industrial products.

Whether you manage freight moving via truckload, LTL, parcel, rail, ocean or air, you’ll find value in belonging to NASSTRAC. Membership offers resources to meet these challenges head on: rising costs of transportation, regulatory issues, legislative decisions, securing adequate capacity for shipments, senior management education and more.

There's no reason NOT to join NASSTRAC.
NASSTRAC is the voice of the shipper in opposing unwise or excessively burdensome regulation that will negatively impact your transportation or supply chain operations. As a member of NASSTRAC, you’ll collectively communicate shipper concerns with greater impact and at a lower cost than if each shipper member acted alone.

Gain a feeling of satisfaction through the knowledge that you are contributing to common-sense, pro-growth policies that will facilitate safe and effective transportation, logistics and supply chain operations and contribute to growing and strengthening our national economy.
