TENURED/TENURE-TRACK FACULTY POSITION

The University of Texas M. D. Anderson Cancer Center, Department of Behavioral Science, is accepting applications for an open rank tenured or tenure-track scholar in any area of cancer prevention, control, psycho-oncology, and related behaviors. Strong preference will be given to applicants whose expertise lies in dietary modification and energy balance. Candidates must have a demonstrated record of scholarly achievement and extramural funding. Qualifications include a doctoral degree in psychology, public health, or related science or a degree in medicine. Special interest, expertise and experience in dissemination of proven interventions to community and patient populations are highly desired. However, applications from all areas of expertise are welcome.

Salary is extremely competitive and commensurate with experience. M. D. Anderson offers excellent benefits. A very generous start-up package accompanies this position, with value depending on the rank of the appointment.

The Department of Behavioral Science provides an unusually rich opportunity for collegial interaction and an exceptional infrastructure for behavioral and methodologic research in populations ranging from healthy, community populations to cancer patients, survivors, and their families. Areas of behavioral science research include smoking prevention and cessation, diet, physical activity, skin cancer/melanoma prevention, cancer screening and early detection, genetic counseling and testing, psycho-oncology and cancer survivorship, stress management and immune function, and communication. Our innovative interventions utilize state-of-the-art technology including a broad range of eHealth applications. Multidisciplinary opportunities in biostatistics, clinical, community and laboratory settings are readily available. The Department of Behavioral Science currently comprises 13 tenured or tenure-track faculty, 10 non tenure-track faculty, and 4 joint faculty. The University of Texas M. D. Anderson is located within the Texas Medical Center, the largest medical center in the world. Houston is a dynamic, multicultural city with a very affordable cost of living.
