NAQC News Flash

\$1 Billion for Prevention Added Back Into Stimulus Package

NAQC has just learned that \$1 billion in prevention and wellness funding was included in yesterday's conference committee stimulus agreement under the category of Prevention - Wellness Trust. An additional \$500 million is also currently included for the health workforce.

At this time, we do not know if tobacco control and cessation programs are eligible for this funding.

NAQC will continue to share details with you on how this funding will impact tobacco control efforts.
