Stimulus Funding for U.S. Quitlines - Call Materials Now Available

Call summary, resource links and audio file

Thank you to all who participated in the September 2, 2009 conference call to discuss the likelihood of up to \$45 million in funding from the stimulus package being allocated to state quitlines and preparations that should be undertaken to prepare for the funding. We had an incredible number of people on the line and appreciated the many questions and suggestions made during the call.

For a complete summary of the call with resource links and to access to the call audio file (available online only until Thursday, September 17), [please visit NAQC's website](#).

As NAQC learns more about stimulus funding for U.S. quitlines, we will continue to update members.
