

Time PST	TUTORIAL - Thursday, 05 November 2020 <i>"Graphene: From The Lab to the Marketplace"</i> - Steve Rodgers, Founder and CTO, EmergenTek LLC	Time CET
7:00	<b>Introduction</b> , Dr. Scott Beckwith, SAMPE Global Technical Director	16:00
	<b>PART ONE: What is Graphene and Why Are All These People Talking About It?</b>	
7:15		16:15
7:30	Practical Physics - An Introduction to Nanophysics for the Non-Physicist Why is an Understanding of Nanophysics Critical to Our Discussion?	16:30
7:45	Basic Properties of Graphene - What Makes it Wonderful? Also, What are the Associated Challenges?	16:45
8:00	The Practical Implications of Nanophysics on Product Performance	17:00
8:15	<b>Coffee Break</b> <i>(Bring Your Own Coffee!)</i>	17:15
8:30	<b>PART TWO: Introduction to Effective Commercialization</b>	17:30
8:45	Recognizing the Challenges to Commercialization Overcoming Commercialization Challenges: A Pragmatic Approach	17:45
9:00	Areas of Commercialization Products Currently in the Marketplace	18:00
9:15	Final Thoughts: Tying it all Together	18:15
9:30		18:30
9:45	<b>Question and Answer Period</b>	18:45

*\*Schedule as of Monday, 8/10/2020. Subject to change*
