THERE IS NO CHARGE FOR THIS PROGRAM.

Funding for this training was made possible (in part) by the Centers for Disease Control and Prevention and/or Department of Health and Human Services Assistant Secretary for Preparedness and Response. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Registration Instructions Included. Please see last page.

GENERAL INFORMATION

Program Description

The threat of an active shooter event continues to evolve in its frequency and complexity. From the Texas Bell Tower attack involving a single shooter in a single location, to the Paris, San Bernardino and Orlando attacks, increasingly with multiple shooters moving to multiple locations, leaders and crisis responders must continually adapt to this ever-changing threat. It is no longer enough to simply prepare employees to *Run, Hide or Fight*. The “Active Shooter 2.0” program introduces the important action steps involved in *Stopping the Killing, Stopping the Dying, and Stopping the Crying*. This presentation will discuss the most up to date approaches for organizations in implementing plans, procedures and exercise to ensure an effective, integrated response to potentially overwhelming active shooter events.

To ensure that participants have an opportunity to apply the principles presented during the morning session, an afternoon Table Top Exercise will be conducted to allow the participants to engage in active discussion and model action steps of a community response.

Program Objectives

As a result of this training and table top exercise, the participants will be able to:

- 1) Discuss the evolution of police, EMS and bystander response and the impact on planning
- 2) List and describe the five-factor workplace violence typology.
- 3) Identify warning behaviors and pre-incident risk indicators of mass shooters.
- 4) Participate in reality-based training based on the action steps of: Stop the killing > Stop the Dying > Stop the Crying.
- 5) Apply the principles of “Zero-hour” behavioral management skills.

Targeted Audience

The program is being offered to expand the skills of behavioral health and emergency/disaster responders across the Commonwealth of Pennsylvania. This includes Emergency Behavioral Health/Disaster Crisis Outreach and Referral Team (EBH/DCORT) County Coordinators, EBH/DCORT members, and other emergency/disaster response personnel.

FACULTY

Steven Crimando, MA, BCETS, CHS-V, Principal, Behavioral Science Applications

CLINICIAN AND EDUCATOR SPECIALIZED IN THE PSYCHOLOGY OF HOMELAND SECURITY, AND HUMAN FACTORS IN EMERGENCY MANAGEMENT.

Internationally known consultant and educator specialized in the application of the behavioral sciences in homeland and private security, violence prevention, crisis management, and disaster response.
