Learning Objectives

2. Through a series of small group activities, participants will create a clear “picture” (both verbally and in writing) which describes what a more balanced life would feel and look like.

3. Utilizing a variety of individual and group activities, participants will develop a 30-day action plan detailing their specific goals, strategies, support systems, resources, evaluation methods, and time frames.

Instructional Methods
Lecture, large and small group discussions, surveys, group brainstorming, and art activities will be used.
