**October 2015**

The *International Classification of Diseases, 10<sup>th</sup> Edition, Clinical Modification*, known as the *ICD-10-CM*, will be implemented on October 1, 2015. Clinical social workers are one of many health care professionals who will be required to use the *ICD-10-CM* coding system when identifying mental health disorders. The *ICD 9-CM* coding system will not be available for use for services provided on and after October 1, 2015. In addition, the *Diagnostic Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV)* should not be used for services provided on and after October 1. Beginning October 1, 2015, the DSM-5 criteria will be used to diagnose mental health disorders.

Coding resources and products available for the ICD-10-CM include the following:
