

Good [morning/afternoon/evening], [Representative/Senator Name],

My name is [Your Name], and I am a resident of [City, State], writing on behalf of [name of your school, organization, or as a concerned constituent]. I am deeply alarmed by the recent ICE raids that took place on June 6, 2025, across several neighborhoods in Los Angeles, including the Westlake District, Downtown L.A., and South L.A.

These actions, carried out by Immigration and Customs Enforcement (ICE), resulted in the arrest of 118 individuals—many of whom are part of families, schools, and communities that now live in fear. Additionally, the recent memorandum signaling the deployment of 2,000 National Guard troops under Title 10 authority only serves to further militarize our communities and escalate harm against immigrants.

As your constituent, I urge you to:

- Publicly condemn the recent ICE raids and militarized immigration enforcement;
- Advocate for policies that protect immigrant families from separation, surveillance, and detention;
- Support legislation that promotes community-centered immigration reform grounded in human dignity and due process;
- Demand oversight and transparency from ICE and DHS regarding enforcement operations in our communities.
- Support the following legislation:
 - SB 48 (Gonzalez), which would bar immigration agents from entering “nonpublic” parts of schools without a warrant
 - SB 81 (Arreguín), which extends similar protections to hospitals and prohibits health care providers from sharing patients’ immigration status without a warrant
 - SB 841 (Rubio), which limits immigration agents’ access to homeless and domestic violence shelters. These bills are crucial steps toward safeguarding the safety and privacy of our students, families, and community members.

Immigrants are our neighbors, students, coworkers, and loved ones. Raids and mass enforcement actions traumatize families, destabilize schools, and foster fear and mistrust in our communities. This is not what safety or justice looks like.

I call on you to stand firmly against xenophobic and punitive immigration policies and instead champion humane, equitable solutions that reflect our shared values of compassion, dignity, and justice.

Thank you for your attention to this urgent matter. I trust you will act swiftly to protect the rights and wellbeing of all members of our community, regardless of immigration status.

Sincerely,

[Your Full Name]

[Your School/Organization, if applicable]
