Conference Theme: Empowering Social Workers! Inspiring Action, Leading Change

Social workers enter the profession because they truly want to help others. We go through years of education, training, supervision and continuing education so we can do the important work of meeting people where they are and helping them achieve their goals. We work in all settings with individuals, families, and communities, social workers are everywhere – schools, state, federal and local governments, hospitals, agencies and more. And social work is one of the fastest growing professions in the United States. Find the full rationale here

The conference will be virtual on September 30 & October 1, 2024 and will include two to three 90 minute plenary sessions along with 1.25 (75 minute) sessions.

The deadline for proposals is Midnight March 15, 2024.
