National Association of Social Workers North Carolina
Research Survey Distribution Policy

Each chapter of the National Association of Social Workers is responsible for approving and sharing any research surveys or studies among its members. Below is the process for this distribution. If you have any questions, please reach out to Seth Maid at smaid.naswnc@socialworkers.org.

1. Any person interested in surveying the members of NASW-NC must electronically submit their survey, instructions on how to complete the survey, and any supporting documents to Seth Maid at smaid.naswnc@socialworkers.org. NASW-NC reserves the right to decline to distribute a survey at any point.

2. All surveys must have prior IRB approval from a university, college or other sanctioning body. Without external IRB approval, NASW-NC cannot distribute the survey among its members. Proof of university IRB approval is required.

3. If the person requesting the survey is a member of NASW-NC:
   a. There will be no cost for survey distribution.
   b. NASW-NC will disseminate via the branch listservs and/or the E-News, as appropriate and depending on the timing and other communications priorities.
   c. If the survey is targeted at a particular group of social workers (eg – clinical, school, macro, etc) the survey can be shared with the appropriate listserv(s).

4. If the person completing the survey is not a member of NASW-NC:
   a. There will be a $150 processing fee for survey distribution.
   b. NASW-NC will disseminate via the branch listservs and/or the E-News as appropriate and depending on the timing and other communications priorities.
   c. If the survey is targeted at a particular group of social workers (eg – clinical, school, macro, etc) the survey can be shared with the appropriate listserv(s).

5. NASW-NC reserves the right to postpone or schedule survey distribution based on the current communication plan of the chapter.

6. Should greater frequency be requested for survey distribution, more contacts with members may be negotiated with NASW-NC, at a possible additional cost.
