

Washington Square Institute for Psychotherapy and Mental Health, incorporated in 1960, is a major state accredited psychoanalytic training program and clinic offering psychodynamic oriented psychotherapy on a fee for service basis to its large patient population. Its therapists continue to be drawn from the fields of psychology, social work and psychoanalytic training. We offer supervised clinical hours for LMSWs seeking supervised hours towards their LCSW or LP, and a chance for LCSWs to both see patients and get experience in supervising other therapists. Now under new management, continuing the tradition of excellence in the field (and in recently refurbished Premises), we are currently looking to add such qualified psychodynamic oriented psychotherapists (as described above) to see patients on a fee for service basis.
