

**Position:** Clinical Supervisor – Social Work  
**Program:** Adult Day Health Care (ADHC)  
**Location:** East Village, New York, NY  
**Date:** February 22, 2019

**Opportunity:**

Housing Works has an exciting opportunity for an experienced social work clinician who is looking for a leadership role in an innovative community-based health care program for individuals living with HIV, mental health, substance use or other chronic health conditions. The Adult Day Health Care (ADHC) program at Housing Works delivers comprehensive social work, nursing, behavioral health and chronic disease self-management services using a combination of individual, group and community-level interventions. The Clinical Supervisor is responsible for the day to day clinical operations, including supervision of social work case managers, oversight of case planning, developing group schedule, oversight of case planning, crisis intervention and quality improvement. The ideal candidate will have multiple years' experience working with individuals with chronic illness, HIV, substance use or mental health conditions, and will have supervisory experience. LCSW preferred, will consider LMSW with sufficient clinical training and experience. Bi-lingual candidates encouraged to apply.

**Summary of Responsibilities:**

- Day to day clinical oversight of program
- Clinical and administrative supervision of social work staff
- Assist with assessment and implementation of overall clinical program
- Group facilitation as needed
- Participation in psychosocial assessment and clinical care planning
- Crisis Intervention
- Participation in Continuous Quality Improvement

**Qualifications:**

- Master's Degree in Social Work, LCSW preferred, LMSW with sufficient clinical training will be considered
- Experience or sensitivity to working individuals who have issues of mental illness, substance use, homelessness or HIV/AIDS
- Previous supervisory experience
- Strong leadership ability
- Ability to use data to inform clinical and administrative decision making
- Ability to apply population health and Continuous Quality Improvement principles to work
- Bilingual English/Spanish strongly encouraged to apply
