

Article 28 Diagnostic and Treatment Center (Clinic) co-located with Substance use disorder program seeks a passionate and empathetic Licensed Clinical Social Worker (LCSW) who has experience with clients in the substance use and/or mental health space.

The LCSW is expected to behave ethically and professionally, demonstrate excellent communication skills and be capable of working with diverse populations.

Ability to work effectively with a multi-problem clientele and chemical dependency team.

Must have emotional resilience and stability since the work often involves dealing with crises.

This professional clinical position is responsible for conducting individual, group and significant other counseling for chemically involved clients.

Must be able to formulate an objective and partialized treatment plan on each client with measureable treatment goals.

Maintain progress notes on a timely and concise basis.

Graduate degree in social work preferred.

Current LCSW license credentials required.

Two years of postgraduate experience in a community-based human service program preferably serving chemical dependent clients.

Extensive knowledge of chemical dependency issues, normal growth and development and casework intervention techniques.

Salary commensurate with experience.

Benefits include:

Medical, dental and vision insurance; 401K; 3 weeks' vacation after 1 year of service.

12 days per year sick time; Major holidays.

Candidates interested should resume/cover letter to cnassauer@jcapprograms.com
