

Licensed Master Social Worker

Atlantic Dialysis Management Services, LLC (“ADMS”) was established to provide new dialysis site development, day to day administration and management of dialysis services and related business development activities. The business strategy is to maximize individual site results through consolidated activities. Central to the ADMS approach is the long term control of these clinical services by nephrologists.

Reports to: Administrator

General Description:

Provides social case work and support to the ESRD patient and his/her family, so that they maintain a meaningful lifestyle within the limitation of the illness and treatment.
