The IVNTA has recognised the second Friday in October each year as International Veterinary Nurse and Technician Day.

The day was chosen in consultation with the permanent members of the IVNTA and, as far as possible, aligns with existing veterinary nurse / technician awareness campaigns and / or with national veterinary nursing / technician conferences. It is therefore hoped that IVNT Day can be celebrated in conjunction with existing activities in member countries so that the initiatives can be mutually beneficial.

The IVNTA very much hopes that your association will join us in celebrating and promoting IVNT Day.
