

Pacific Shoring Products Introduces the Expandable Manhole Box.

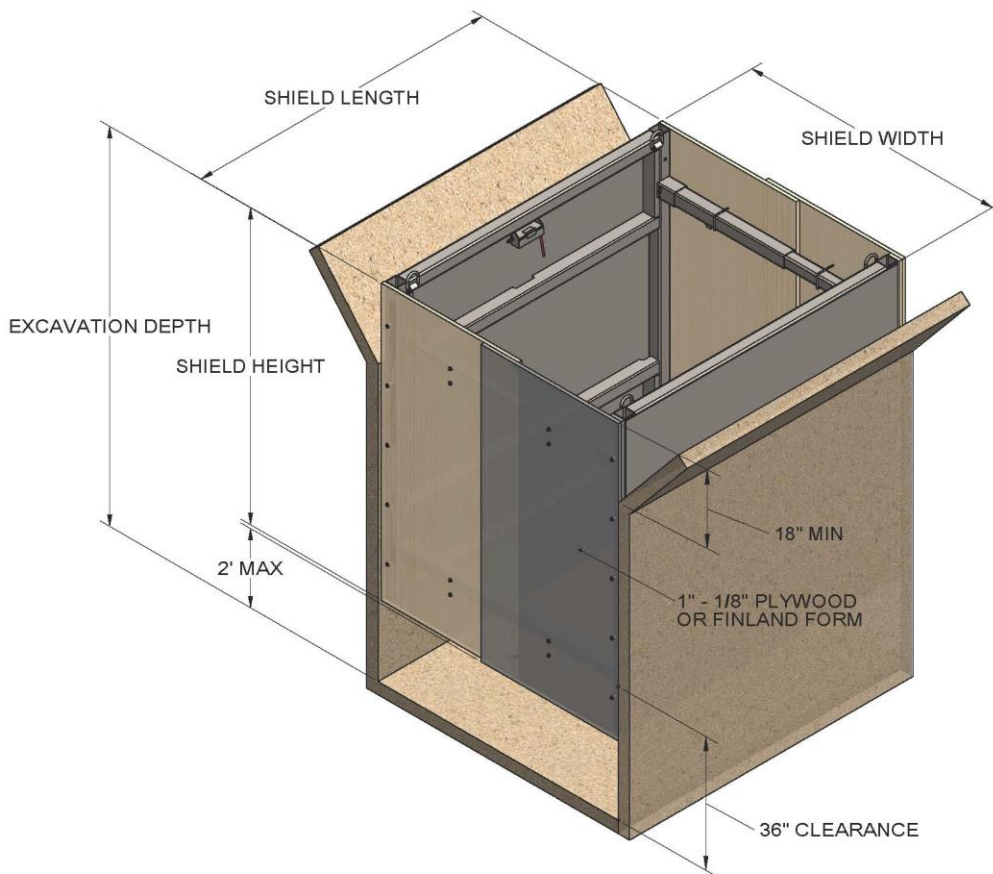

Key Features:

- Lightweight
- Expandable
- Hydraulic
- Auto Spring Loaded Retraction

The Pacific Shoring Expandable Manhole Box is a lightweight, backhoe liftable shield built from high tensile steel 4" wall sections and a combination of hydraulic struts and replaceable plywood sections.

This new Expandable Manhole Box is offered in various heights and widths with stackable options. This application comes equipped with hydraulic cylinders that offer two feet of retractable stroke.

The Expandable Manhole Box is designed to be used in linear trench applications and light duty utility work in OSHA Type A, B and C soils.
