College Affordability in DELAWARE

Public postsecondary education is becoming less affordable. NCAN’s research shows that, between 2015-16 to 2019-20, the percentage of affordable two- and four-year public institutions have declined for the average Pell Grant recipient. When students’ financial aid, family contributions, and work earnings fail to cover the cost of attendance, NCAN defines the remaining value as an “affordability gap.”

This is the state of college affordability for Pell Grant recipients in Delaware.

### PERCENTAGE OF INSTITUTIONS THAT ARE AFFORDABLE, 2019-20

- **4-Year**
  - Delaware: 0%
  - U.S.: 24%
  - No Data
- **2-Year**
  - Delaware: 40%
  - U.S.: No Data

### AFFORDABILITY GAPS, 2019-20

- **4-Year**
  - Delaware: $3,391
  - U.S.: $2,627
  - No Data
- **2-Year**
  - Delaware: $907
  - U.S.: No Data

---

1 A “negative” affordability gap represents an average cost of attendance that is lower than the sum of average financial aid, family contributions, and student wages from work. Conversely, a “positive” gap means there is fewer financial resources than is needed to pay for college.
College Access and Completion in DELAWARE

FAFSA COMPLETION
The Free Application for Federal Student Aid (FAFSA) determines eligibility for many types of aid. FAFSA completion is strongly associated with college enrollment. Nationally, 52% of high school seniors completed the FAFSA for the 2022-23 cycle.
