NCAN’s research documents the prevalence of “unaffordability” at public two-year and four-year institutions for students from low- and moderate-income families. The following charts demonstrate the affordability landscape of postsecondary education. When net price and emergency expenses are not covered by subsidized loans and student earnings from part-time employment, NCAN defines the remaining deficit as an “affordability gap.” In instances where the sum of loans and wages equals or surpasses the sum of net price and emergency costs, we refer to the surplus as “an affordability margin.”

The **Pell Grant** is a federal need-based aid award that helps millions of students annually.

### Percent of Affordable Institutions (2021-2022)

- **Oregon**: 71%
- **United States**: 63%

College Access & Completion in Oregon

The Financial Application for Federal Student Aid (FAFSA) determines eligibility for many types of financial aid. FAFSA completion is strongly associated with college enrollment. Nationally, 59% of high school seniors completed the FAFSA for the 2023-2024 cycle.

45% of high school seniors in Oregon completed a FAFSA for the 2023-2024 cycle (as of 7/1/2023).

Oregon ranks 39th in FAFSA Completion.

The OREGON Class of 2023 left $32 million in Pell Grants unclaimed, by not completing a FAFSA.
