FALL CONVENTION SPEAKERS INFORMATION

SEPTEMBER 13-15, 2019

SATURDAY, SEPTEMBER 14TH

CA EDUCATION: "HOW TO BE A SUPERSTAR COMPLIANCE CA – HIPAA AND OIG/MEDICARE"

PRESENTER: DR. TY TALCOTT

TIME: 9:00AM – 12:00PM & 2:00PM – 5:00PM

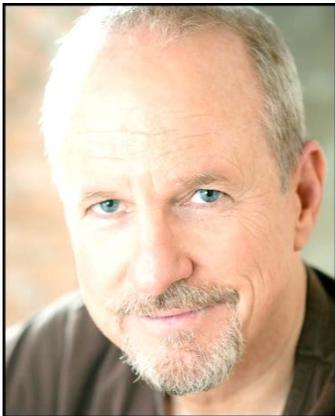

OUTLINE:

CA EDUCATION CLASS

NOT FOR CEU

To supply information to help simplify the implementation and maintenance of an appropriate HIPAA and OIG compliance program, with their extensive lists of required and addressable standards, in the typical chiropractic or multidisciplinary clinic, so that the option exists for the doctor to delegate and/or oversee the majority of this process and/or participate to whatever level desired. Help prepare doctors to avoid being ravaged by Medicare demands to return money paid to them by Medicare in the wake of the OIG report listing chiropractor as the number one profession for Medicare fraud and that 82% of all claims paid to chiropractors should be repaid to the government.

ABOUT TY TALCOTT, DC, CHPSE

- Has consulted to thousands of health care practices relative to business development and protection.
 - A sought after speaker who has led numerous seminars, performed as a keynote speaker and has been featured on the cover of several magazines. He has presently instructed over 100 webinars and 90 live events relative to HIPAA and government compliance for 38 state chiropractic associations and three chiropractic colleges, as well as independent and medical organizations. Had over thirty articles published relative to the onset of and participation with managed care-over a dozen articles regarding HIPAA compliance.
 - Is a founding partner of an IPA (independent physician association) that credentialed participating doctors for contracting with HMO's and PPO's.
 - Served on the Governor appointed Workers Compensation Commission in Texas.
- He is an expert at the art of effective communication and has appeared on dozens of radio and TV talk shows.
Has founded and chaired two hospital departments.

FALL CONVENTION SPEAKERS INFORMATION

SEPTEMBER 13-15, 2019

SUNDAY, SEPTEMBER 15TH

"TOTAL GUT RESTORATION FOR A PERPETUATED DYSFUNCTIONAL GUT"

PRESENTER: DR. THOMAS BAYNE & DR. RYAN BALL

TIME: 8:00 AM – 12:00 PM

OUTLINE:

4 HOURS OF CEU

An often-overlooked role of the microbiome is to prevent post-prandial endotoxemia and the inflammatory devastation that follows, which can ultimately result in chronic illness. All chronic illnesses start or are perpetuated by a dysfunctional gut. Effectively treating these conditions requires a clear understanding of the gut associated pathology driving the disease. A decades worth of Microbiome research has elucidated these pathologies and a careful review of the literature reveals potentially effective treatments. Participants will understand the form and function of the human microbiome, factors that disrupt its optimal development resulting in various diseases. Attendees will also learn actionable changes that any person can make to increase diversity of the gut's microbiome and list of nutrients that can repair intestinal barrier function.

ABOUT RYAN BALL, DC, ABAHP, FAAMFM & THOMAS BAYNE, DC

Dr. Ryan Ball provides holistic, natural healthcare to the people of the Midwest United States and beyond. Dr. Ball is a published research author and his work includes a paper on Anosmia (inability to smell) in a patient who also had headaches and vertigo. Dr. Ball will be lecturing on Leaky Gut and the Human Microbiome at various conferences throughout the country. He is also constructing a series of classes that instruct practitioners on how to safely detox metals and other chemicals out of their patients.

Dr. Tom Bayne is a Chiropractic Physician and public speaker dedicated to understanding and improving the gut microbiome. As the President of Microbiome Labs, Dr. Bayne travels around the world educating healthcare practitioners on the science of the gut microbiome, its relation to chronic diseases, and innovative solutions to improve the health of patients. In his own clinic, Dr. Bayne has spent over 24 years helping his patients optimize their digestive health, improve autoimmune conditions, and enhance detoxification.
