

Linda Piper's Directions to Dix Grill

Here are detailed directions to Dix Grill from Western Blvd. You can reach the Dix Campus via Lake Wheeler Road also, but these directions will not help you if that's how you come in!

These directions are for you if you enter onto Boylan or onto Hunt Drive, off Western Blvd.

Western Blvd onto Boylan Avenue:

Turn onto Boylan off Western Blvd and go straight up the hill, around a curve to the left then a curve to the right. Come to a stop sign.

(The building directly in front of you is the side of the McBryde building, by the way, which is the home of DCDEE).

Turn right at the stop sign and you'll be on Umstead Drive. Umstead curves around the McBryde building, which will be on your left.

(FYI, once Umstead straightens out you'll see the main entrance to McBryde/DCDEE to your left. Look for the flag pole. Good to know in case you need to come there sometime!)

You'll go over several speed humps. You'll see Cafeteria Drive on the left, but it's one way coming OUT. (You can look down Cafeteria Drive and see the Dix Grill building that is your ultimate destination.) Take the next left onto Whiteside where you see the sign for Haywood Gym.

When you reach the next speed hump you'll see a long brick building on your left that is partially painted white and has multiple "additions" onto it.

*Turn left **just before** that building and then bear around to the right behind it.*

You can see Dix Grill directly in front of you... It is a 2 story building with 9 windows on the 2nd floor.

Traffic pattern is not well-marked but will take you to two rows of angled parking spaces that are right in front of Dix Grill. If those spaces are full you may have to look for spaces near Haywood Gym.

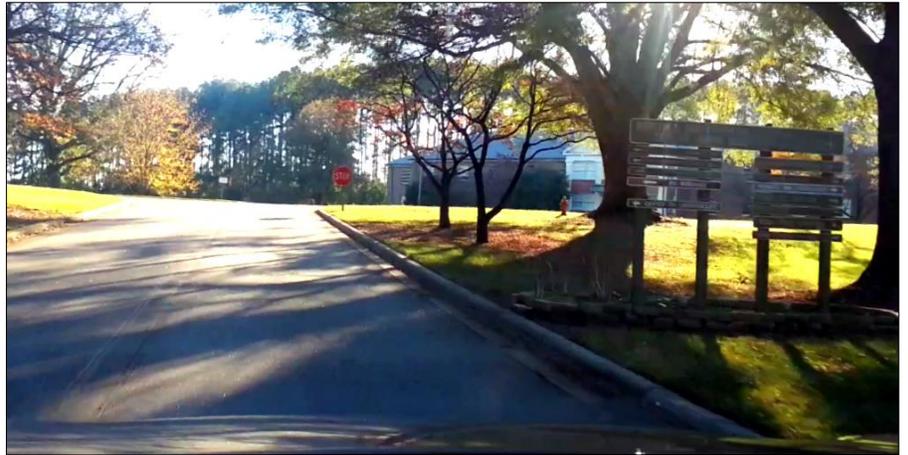

This is the front door of Dix Grill.

Congratulations! You have arrived!

Western Blvd onto Hunt Drive:

If you come in off Western Blvd onto Hunt Drive, go past the soccer fields on your right. Come to a stop sign at Umstead Drive.

*Turn left onto Umstead.
Go over the bridge.*

Just past the first cluster of brick buildings you'll turn right onto Whiteside. There will be a small sign on your left pointing to Haywood Gymnasium.

When you reach the next speed hump you'll see a long brick building on your left that is partially painted white and has multiple "additions" onto it.

Turn left **just before** that building and then bear around to the right behind it.

You can see Dix Grill directly in front of you... It is a 2 story building with 9 windows on the 2nd floor.
