Strongwater Farm Therapeutic Equestrian Center

Strongwater is a non-profit organization providing a variety of programs, from therapeutic riding to horsemanship skills, barn management and general horse care. All of our programs are designed to meet the specific needs of clients with abilities or disabilities of all levels. We service the needs of the Tewksbury Hospital clients as well as the local community.

Equestrian Competitions for people with disabilities have started to spread across the country. The Strongwater site is a convenient pastoral location. The site, though primarily designed to host Strongwater Farm's special events, can accommodate fine agricultural shows and competitions. Revenue from show will go to support Strongwater Farm Therapeutic Equestrian Center and the equestrian programs offered there providing therapeutic riding opportunities to the clients of Tewksbury Hospital and the public.

Strongwater Farm Therapeutic Equestrian Center
