SusanJStickle.com Equestrian Photography is proud to announce that we are the official photography company for the Performance divisions at the 2018 NEDA Fall Festival. Sue is a professional photographer who specializes in photographing dressage and has more than 24 years' experience shooting at national and international venues. Over the last 10 years, Sue has assembled an outstanding team of professional dressage photographers to work with her at championship shows like the NEDA Fall Festival. We work by request only and charge a minimal shooting fee of \$35 (per show per horse & rider). This fee is similar to what you would pay at a professional photo studio. Working by signup ensures that we are only shooting competitors who want photos taken during their rides. We have all competition arenas covered throughout the show and cover any vet inspections and all awards. All award photos are posted on our website after the event, and it is not necessary to pay the shooting fee to view them. Please contact us for more information or if you have any questions.
