Re: Revised Licensing Declaration Form on behalf of Synergem Technologies, Inc.

Dear Ms. Arnold:

This firm represents Synergem Technologies, Inc. Synergem has asked me to communicate with you about your email dated February 16, 2015 where you asked Synergem to clarify the intent of its letter and License Declaration Form ("LDF"). Please communicate directly with me about these issues going forward. I appreciate your courtesy.

On February 16 you wrote:

The letter and License Declaration Form (LDF) indicate RAND for NENA-INF-004.1-2013 Operational Impacts of Devices and Sensors Information Document. However, there are then 2 additional pages listing several other pending and granted patents. Does RAND apply to all of those as well? If so please update the LDF to include all applicable documents.

The answer to your question is yes: Synergem does intend that RAND terms apply to all disclosed IP. We regret any confusion.

Please find attached Synergem's revised LDF. Please let me know if you have any additional questions or concerns.

Very truly yours,

LANE POWELL PC

Background

The NENA Intellectual Property Rights (“IPR”) Policy, available at www.nena.org/ipr, requires all Participants in a NENA Committee to complete this Licensing Declaration Form within sixty (60) days after receiving a Stable Form Notice for a particular Deliverable.

This declaration does not represent an implied license grant. Members and participating entities are advised that the NENA IPR policy prohibits the discussion of licensing terms, conditions, prices and certain other matters in a NENA forum. Further information is available in the Anti-trust section of the NENA IPR Policy.
