## Introduction

### PURPOSE OF CERTIFICATION

Certification is a tool of a professional association to establish the benchmarks of performance that will signify a broad-based competence in the professional field. By successfully completing this certification program, you will:

- demonstrate a mastery of the comprehensive knowledge base required for emergency number program management
- help raise industry standards and increase the respect and prestige of those involved in 9-1-1
- confirm your commitment to the 9-1-1 profession by showing you are a leader in public safety and pledging you will stay aware of current issues and developments in the field

### GOALS OF CERTIFICATION

The NENA Executive Board first formed a Certification Committee in 1992 to explore the development of a certification program for individuals involved in 9-1-1 program management. After a thorough review of the certification process, the Executive Board approved the Committee's recommendation to go forward with the establishment of an Emergency Number Professional Certification Program. This recommendation included several goals:

- to establish the comprehensive body of knowledge for Emergency Number Professionals
- to promote a standard of competence for Emergency Number Professionals that will be recognized and accepted by the 9-1-1 profession, governmental agencies, the business community, and the general public
- to ensure an awareness of current issues and developments in the 9-1-1 profession
- to provide formal recognition of individuals for professional achievement
- to encourage professional growth and enhance the self-esteem of Emergency Number Professionals

Certification will be granted to those individuals who meet the eligibility requirements for admission to the examination outlined in this handbook and who successfully pass the examination.

### USE OF EMERGENCY NUMBER PROFESSIONAL CERTIFICATION

Successfully completing the Emergency Number Professional Certification Program gives you the authority to use the official ENP designation on letterhead, business cards, and all forms of address. Furthermore, you will receive a handsome certificate attesting to your achievement as an Emergency Number Professional.

Participation in the ENP Certification Program is purely voluntary and certification is conferred by NENA solely for the purpose of achieving those goals stated in the above sections. The use of the ENP certification as a condition for employment or advancement is a choice to be made by individual organizations as deemed appropriate.

### DENIAL AND REVOCATION OF CERTIFICATION

The Emergency Number Professional Certification will be denied or revoked for any of the following reasons:

1. Falsification of the Certification Application
2. Misrepresentation of certification status
3. Violation of examination procedures
4. Failure to pass the certification examination
5. Failure to meet recertification requirements

NENA has developed a procedure for reconsideration and appeal for candidates who have had certification denied or revoked on the basis of falsification of the certification application, misrepresentation of certification status, violation of examination procedures, or failure to meet recertification requirements. NO appeal will be heard on the basis of failure to pass the certification examination.

## SECTION I (cont'd.)

---

### RECERTIFICATION

Emergency Number Professional Certification is recognized for a period of four years. To retain certification status, the candidate must accumulate 24 points over the four-year period or pass the ENP Examination prior to the recertification deadline.

### CONTENT OF THE EMERGENCY NUMBER PROFESSIONAL CERTIFICATION EXAMINATION

The questions on the Emergency Number Professional Examination will test for knowledge of the following content areas. The percentages given after each content area indicate the approximate percentage of questions for that content area on the examination.

#### 9-1-1 Operations (50%)

- Telecommunications Operations (35%)
- Information Systems (10%)
- Legislation (5%)

#### 9-1-1 Management (50%)

- Management of Organization (20%)
- Management of Employees (25%)
- Legislation (5%)

### FORMAT OF THE EMERGENCY NUMBER PROFESSIONAL CERTIFICATION EXAMINATION

1. The Emergency Number Professional Certification Examination includes 150 multiple-choice questions representing the major knowledge content areas outlined in the above section. Following each question, four choices will be listed including one correct or best answer and three plausible, but wrong answers. The answer to any one question will not depend on the answer to any other question on the examination.
2. The examination questions have been written and reviewed by current professionals working in the 9-1-1 field to ensure all questions on the examination represent the knowledge required by Emergency Number Professionals. Questions have also been reviewed by the Professional Testing Corporation to ensure uniform construction, accuracy, and appropriateness.
3. For each new examination date, the examination will be modified and updated to reflect any new developments or current issues facing Emergency Number Professionals.
4. Total examination time is three (3) hours.

### DETERMINATION OF THE PASSING SCORE

The passing score for the Emergency Number Professional Certification Examination is set by the NENA Institute using a method called the modified-Angoff approach. This method asks each individual to make a judgment about the probability that a minimally competent candidate who meets the eligibility requirements would answer the questions correctly. The overall passing score is computed as the average of the estimated probabilities for each question.

The passing score that is set by the NENA Institute represents a level of competency that must be demonstrated to pass the examination.

### DEVELOPMENT OF THE EXAMINATION

The Emergency Number Professional Certification Examination has been developed in compliance with generally accepted testing guidelines and standards. Examination questions are written by current 9-1-1 professionals active in the field. Professional Testing Corporation then reviews and edits all questions submitted for correct grammar, format, and consistency. The questions are then reviewed and edited by current 9-1-1 professionals to ensure relevance and accuracy. Approved questions are added to the examination bank, from which questions for future examinations will be selected.

## Preparing for the Examination

- Check your government issued photo ID (driver's license, passport or U.S. Military ID) when you make your examination appointment. Is it expired? Does the name on your ID match the name on your Scheduling Authorization email? Proctors at the Prometric testing center will refuse admission to candidates with expired IDs, IDs with names that do not match their records, and temporary paper IDs. Candidates will be marked as no-shows and will forfeit their exam fees.
- Check your PTC Scheduling Authorization email and Appointment Confirmation email from Prometric to make sure everything is accurate (i.e. your name, exam name, appointment date, time and location).
- Make yourself familiar with the location of your chosen testing site and any requirements they may have for parking and check the weather and traffic conditions before you leave for the testing center. Make sure you give yourself plenty of time to arrive as late arrival may prevent you from testing.
- In the event of inclement weather, check the Prometric website for site closures: <https://www.prometric.com/closures>.
- Prometric's website provides information on what you can expect on your test day, including a walk-through of check in and security procedures: [www.prometric.com](http://www.prometric.com).
- This Handbook provides the Content Outline for the Examination (see appendix). Use these to help you start studying for the examination.
- Review the Rules for the Examination on the next page before your appointment.

# APPENDIX A: ENP Body of Knowledge (BOK)

Version 7.0, 06/18/20

The ENP Body of Knowledge (BOK) was established in 1995 as a result of interviews conducted at the National NENA Conference in Las Vegas by Dr. Robert Mathis and Carol McKnight, of the University of Nebraska, and a nationwide survey sent to all NENA members. The data from both was compiled and is intended to reflect the knowledge needed to perform in the capacity of an Emergency Number Professional.

The Body of Knowledge was approved by the NENA Executive Board. Once the NENA Institute Board was established, it became the responsibility of the Institute Board to regularly review and update the BOK as needed.

**The BOK is the source of the questions used on the ENP exam.**

The following pages describe how the various facets of the BOK are aligned with the exam questions. The reader is cautioned to understand that these pages constitute a “snapshot in time” of the BOK. The actual BOK is a living document that changes when the Board members deem it necessary to keep it up to date. The most recent version of the BOK listing may be found on NENA’s web site at [nena.org/enp](http://nena.org/enp).
