Condensation Resistance Task Group
January 25, 2019
11:00 – 12:00am EST
Chair: Dennis Anderson, UL, LLC

1. Call to Order at 11:03am EST
2. Appoint Recording Secretary (Staff)
3. Agenda approved as presented
4. New Business
   a. NFRC 500 ballot – D. Anderson provided an update on the following:
      i. Location to 1” on the glass
      ii. Updated term “resistance” to either “Index” or “potential” where appropriate.
      iii. D. Anderson to prepare a paper as supplemental information for the ballot, comparing AAMA 1503, CSA TI and NFRC CI rating methods. The document will be on the Condensation Resistance TG’s webpage when the ballots are distributed.
      iv. The cover letter will need to be modified when ballot is completed.
   b. NFRC 501 ballot – D. Anderson provided an update on the following:
      i. Updated term “resistance” to either “Index” or “potential” where appropriate.
      ii. Add CI after Condensation Index
      iii. Cooling Degree Days (CDD) was removed
      iv. D. Anderson will work with J. Larsen to provide examples and tables for WDT and cumulative hours
      v. Staff will add WTD tables after each example to clarify CI required.
      vi. The cover letter will need to be modified when ballot is completed.
   c. Review Task List was updated and will be updated on the task group webpage.
5. Schedule next meeting – Monday March 18th at 11:00am EDT
6. Adjourn at 11:31am EST
