LABEL CERTIFICATE UPDATES

Label certificate updates include:

– Updated links in the Label Certificate.

Note: For NFRC-approved frame, glazing and spacer component performance information see the NFRC Approved Component Library Database: [http://cmaст.nfrc.org/Project/CertificateFind.aspx](http://cmaст.nfrc.org/Project/CertificateFind.aspx)

*Certification information provided is for those fenestration systems listed and may not encompass all systems for the project.

** Each individual product certified performance rating is based on NFRC standard size in accordance with NFRC procedures.
SUPPLEMENTAL INFORMATION REPORT (SIR)

- SIR is available only when the “Incl Suppl Info” box is checked.

! If you create a Label Certificate that does not have the box checked, you cannot go back and retrieve the data.
GUI Changes

- Ability to type in the number to select glass
GUI Changes

- Double clicking the frame member will open the frame configurator
APPLICATION INFRASTRUCTURE STABILITY

• Training server was updated with the new installer for the upcoming ACE training (November 12).

• IGDB 29.0, 30.0 & 31.0 will be included in the next CMAST installer.
MODIFICATIONS/SCHEDULED TASKS

Billing Changes:

- Changes in the billing process have occurred since the PIP was outlined.
- Removal of the payment requirement before obtaining the label certificate has been completed.
