Training Opportunities: NFRC Certified Simulator Training

- **June 25-29, 2018 -- Buffalo, NY**
- **September 10-14, 2018 -- Toronto, ONT, Canada**

The NFRC Certified Simulator workshop is an intensive week of training and requires knowledge of WINDOW and THERM. It is highly recommended you understand the relationship between WINDOW and THERM. The training is an in-depth review of these programs by solving interactive problems, as well as a review of the NFRC-accredited laboratory and certified simulator requirements. Training materials will be provided on a USB drive at the workshop.

Click on the locations above for more information and to register.

Please contact Kevin Louder, Program Manager, or Scott Hanlon, Director, Program Operations with questions.

*NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.*
