Survey

In response to meeting attendee feedback, NFRC staff have proposed some scheduling changes to the NFRC meetings that are intended to reduce or eliminate periods of inactivity and redundancy. In response to the proposed changes, the NFRC Board of Directors is requesting input from NFRC participants and members on the viability of these changes.

Please complete a short, [three-question survey](#) to inform staff. Your input is vital in helping staff reach the goal of improving efficiency and productivity of NFRC meetings.

[The survey may be found here](#) – responses are requested by January 4, 2019.

For more information, please contact [Scott Hanlon](#), NFRC Director of Program Operations.

NFRC 101 Appendices A and B Webinar

Members and participants are invited to a free webinar to review the proposed changes to the generic material lists in NFRC 101. These lists are the basis for the generic materials used in NFRC simulations by all participants in any NFRC certification program.

Throughout 2018, the NFRC 101 Task Group has worked to update the referenced sources for the conductivities of these materials to ensure the most accurate simulations possible.

When: Thursday, January 17, 2019
Time: 1:00 - 2:30 PM

Trade Shows/Conferences

The Energy Expo 2019 - Jan. 23 - 24, 2019 in Miami, FL.

[The Energy Expo](#) formerly known as MiaGreen Expo and Conference, focus on major energy-related fields to serve the connection with the substantial Latin American and Caribbean

markets.

NFRC will attend and deliver an education session, speaking to a group of nearly 70 design-build professionals and energy officers from the U.S., Latin America, and the Caribbean.

Celebrate with NFRC!

Did you know, **NFRC celebrates 30 years** of promoting energy performance with "**Mission Possible**" campaign, highlighting the accomplishments of our members.

Help us celebrate; we want to hear from you!
Tell us how the NFRC label transformed your business.

[More details here](#)

**NFRC offices will be closed from
December 24, 2018 – January 1, 2019.**
