NFRC celebrates 30 years as the leading, independent, nonprofit organization measuring window, door, & skylight energy performance. We have done this through the development of robust product ratings and certification program. Check out the 30-year timeline!

Just in Case you Missed it!
NFRC in Consumer Reports!

Making Sense of a Window Label

In this look at window labels, Consumer Reports helps you understand the label ratings and difficult-to-parse jargon.

Massachusetts Bill Would Require Performance Labels on Homes for Sale

If Massachusetts Senate Bill 1983 (S.1983) becomes law, anyone selling a residential dwelling soon may be required to provide a complete energy assessment of their home when offering it for sale. As part of building envelopes, windows, the bill declares, are one aspect of the “information regarding annual energy consumption, energy costs for electricity and thermal needs” that legislation suggests need to be considered in ratings.

Information technology continues to evolve at a rapid pace, and NFRC is working hard to ensure program participants enjoy optimal productivity in the changing environment. Over the past several months the NFRC Applications Development Team has been hard at work spotting trends in its commercial workspace. Particularly in the relationship between the Component Modeling Approach Software Tool (CMAST), users, and the Microsoft Windows 10 operating system. Some users of CMAST have experienced instability after switching to a Microsoft Windows 10 environment.

When CMAST users decide to upgrade their systems, it’s essential to consider that CMAST was designed to be used on the Microsoft XP and Vista operating systems. Users who install CMAST on later versions of Microsoft Windows may experience inconsistent behavior.

If you have any questions about CMAST, please contact support@nfrc.org

Attention FenStar® Licensees

This is a reminder, all manufacturer folders have been created on the FenStar Document Uploading SharePoint. If you have not received the Welcome Letter from FenStar Staff or are having issues accessing your document uploading folder, please contact FCP@nfrc.org for assistance.

Please begin uploading the required documentation (outlined in the checklist attached to the welcome letter) for FenStar certification as soon as possible. We are currently certifying product lines from participants who have uploaded all required certification documentation. FenStar Staff will be reaching out to all participants who have either not uploaded the required documents or are missing elements required for certification.

If you have not yet signed and returned your FenStar License Agreement, your organization has been reported as a non-compliant partner to ENERGY STAR Enforcement. If you feel this is in error or have any questions, please contact FCP@nfrc.org.

The license agreement can be downloaded HERE and should be signed and returned via email to FCP@nfrc.org.
Conferences / Meetings

June 2019

- [AIA Conference on Architecture 2019](#), Las Vegas, NV -- June 6 - 8
- [AAMA and IGMA Summer Conferences](#), Victoria, British Columbia -- June 17 - 20

September 2019

- [NFRC 2019 Fall Membership Meeting](#), Charlotte, NC -- September 23 - 25

NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.
