2020 Board of Directors Slate

Thank you to all of our members who voted on the 2020 Board of Directors Slate of nominees. The election is now closed and we will be sending out the results to membership in the coming days.
FenStar® 2020 Verification Testing (VT)

The 2020 Verification Testing (VT) year will soon be upon us, and selections will be made as close to 1/1/2020 as possible. VT is a mandatory requirement to maintain ongoing ENERGY STAR® product certification. The ENERGY STAR Product Line Identification Tool (PESI) must be up to date to nominate product lines for VT. The PESI is used to communicate the product lines which are certified and eligible for VT to ENERGY STAR.

Please visit the PESI and ensure your product lines are current and make any updates as necessary. Please make any updates on or before 11/30/19. If you have any issues logging in to the PESI, please make sure you are using your CPD credentials to log in. If problems persist, please contact Dan Womer immediately.

Let's Be Friends!

NFRC's social media channels are constantly being updated with new content, important announcements, and some pretty cool behind the scenes coverage of the NFRC team in action. Join the conversation so you don't miss a thing!

Opportunity to Partner with the U.S. Department of Energy Solar Decathlon

The Solar Decathlon is a collegiate competition comprising 10 contests, that challenges student teams to design and build highly efficient, innovative homes powered by renewable energy.

The Solar Decathlon Build Challenge will take place June 25 – July 5, 2020 on the National Mall in Washington, D.C. in conjunction with the Smithsonian Folklife Festival. The event will feature 11 teams with tourable homes, and/or displays of their locally built homes. With over 500,000 expected attendees including the general public and policy makers, this event is a tremendous opportunity to feature your brand and priorities.

See the sponsorship opportunities here. For more information, contact Holly Carr at holly.carr@ee.doe.gov or 202-287-1409.
National Fenestration Rating Council

NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.
