A Message from Governor Larry Hogan

Dear Ms. Callahan:

Allow me to offer my sincerest congratulations on the 30th anniversary of your organization, the National Fenestration Rating Council. It is my pleasure to provide this message to you on this occasion.

For three decades, this independent nonprofit has promoted cost-efficient and environmentally friendly energy solutions by providing expert analyses and energy performance reviews for window, door, and skylight products. This important work provides helpful information to energy-conscious consumers. Importantly, also fostering healthy competition among private companies, encouraging them to make their products more environmentally-conscious and energy efficient, leading to decreased energy costs.

As the demand for energy continues to grow, your vital work is essential to ensuring consumers, both private and commercial, make informed energy purchasing decisions and protect our precious environment, while also saving valuable resources.

Again, I express my appreciation for your work and the positive impact it has made on infrastructure, consumer knowledge, and the environment throughout Maryland and across the country. Best wishes for more years of continued success.

Sincerely,

A handwritten signature in blue ink that reads 'Larry Hogan'.

Larry Hogan
