

BULLETIN

NFRC FenStar® Certification Program New Documents Has Arrived!

NFRC has released new documents in the FenStar® Certification Program. The documents provide procedural guidance for manufacturers and labs as well as manuals for using program related software.

This is the list of the new documents available --

- FS-1103 - Application for Certification Procedure
- FS-1104 - Product Evaluation Procedure
- FS-1105 - Feedback, Complaints, and Appeals Procedure
- FS-1106 - Suspension, Termination, and Withdrawal Procedure
- FS-1100.01 - FVT Manufacturer Guidelines
- FS-1100.02 - FVT Lab Guidelines

PESI Manual

Sharepoint Document Management Licensee User Manual

All new documents are available to be downloaded. Each procedure describes in greater detail how manufacturers and staff are going to work with each other to certify products and perform the verification testing.

The previous published documents – FS-1001, and FS-1100 can still be found on the [NFRC FenStar Certification Program webpage](#).

Questions regarding the FenStar Certification Program can be directed to fcp@nfr.org
General comments can be directed to ProgramUpdates@nfr.org.

Thank you!
