

BULLETIN

Dear ENERGY STAR Partners,

In an effort to improve the fairness and protection for all parties, NFRC has revised our license agreement for the FenStar® Certification Program. NFRC staff and NFRC legal counsel worked together on these revisions. The changes to the license agreement are tracked in the document found [HERE](#).

Per the provisions of section 2.c. of the existing license agreement (which remains in the revised version), "... NFRC may amend any provision of this FenStar License Agreement in the following manner. NFRC shall give Licensee not less than 30 days prior written notice of the proposed amendment to this FenStar License Agreement, including the specific language of the proposed amendment. If Licensee does not notify NFRC in writing of its objection to the proposed amendment within 30 days of its receipt of the above-referenced written notice, the proposed amendment shall automatically become effective as of the end of that 30 day period. If Licensee provides a written notice of its objection to the proposed amendment within that 30 day period, the amendment shall not become effective and NFRC may elect to terminate this FenStar License Agreement as provided in Section 7(c) ..."

If NFRC has not received an objection from you within that 30 day period, we will consider that your approval of the new agreement. Please retain a copy of the new agreement as an addendum to the original or, if you wish, you may sign a copy of the new License agreement ([HERE](#)) and submit it for countersignature. All email correspondence should be directed to the FenStar Certification Program inbox at fcp@nfr.org.

Regards,

Steve McDowell
Residential Program Manager

National Fenestration Rating Council

NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.
