WHEREAS, NFRC is the owner and proprietor of U.S. Registration No. 2,238,431 for the certification mark (the “Registered Mark”) attached hereto as Exhibit A, being a distinctive trademark logotype incorporating the initials “NFRC” inside a circle within an arched window featuring half a sun and snowflake design on either side of the circle and further containing the corporation’s name and the symbol ®. This mark may be used by third parties who are certification and inspection agencies (“IA”) and who have met the requirements embodied in the NFRC Certification Agency Program (CAP or the “IA Program”) as it may be amended or updated from time to time, a copy of which has previously been provided to Licensee. This Registered Mark may also be used by manufacturers, among others, on a NFRC-authorized label, as defined in the PCP (the “Label”), to be affixed to fenestration products to indicate those products meet the requirements of the Certification Program; and

NFRC DOOR MANUFACTURER/PRE-HANGER LICENSE AGREEMENT

WHEREAS, NFRC owns common law trademark and trade name rights to the word mark “NFRC” for use in association with the operation of its Certification Program and otherwise (the “Word Mark”); and

WHEREAS, Licensee manufactures, glazes and pre-hangs doors and Licensee has obtained or intends to seek a grant of product certification authorization for these doors pursuant to the Rating System, Certification Program, IA Program, as they may be amended or updated from time to time, (collectively, the “Programs”);

WHEREAS, if Licensee meets NFRC’s requirements for such licensing and complies with all other requirements established by NFRC, Licensee will be entitled to apply the Label to doors for which Licensee has been granted product certification authorization, and to utilize the Registered Mark and Word Mark in promoting Licensee’s door products for which certification has been granted.

NOW, THEREFORE, the parties hereby agree as follows:

1. **Grant of License.** NFRC hereby grants to Licensee a nonexclusive, non-divisible, non-assignable and non-sublicensable license to use the Word Mark and Registered Mark as components of the Label in commerce in connection with the permitted uses referenced in Section 2 below, including under the Certification Program, IA Program and Accreditation Program and subject to the terms and conditions of this Agreement. No other right or license is granted to Licensee hereunder, either express or implied, with respect to any other trademark, service mark, trade name or other intellectual property right of NFRC. No license is granted hereunder to Licensee’s affiliates, owners, officers, directors or members. Upon NFRC’s termination or suspension of Licensee and upon termination of this Agreement, the license granted hereunder shall automatically terminate and Licensee shall no longer have any right to use the Word Mark or the Registered Mark, or to apply Labels to its fenestration products.

2. **Permitted Use.**

a. Subject to the terms and conditions of this Agreement, Licensee may apply the Word Mark and Registered Mark as components of the Label in the manner and form required by NFRC to doors manufactured by Licensee at Licensee’s manufacturing facility or facilities listed on Schedule I, which is attached hereto and incorporated herein by reference and which may be supplemented from time to time by an amendment to the Schedules executed by Licensee and NFRC, which products have been authorized to be certified by an IA to indicate compliance with NFRC’s product certification requirements as set forth in the PCP (“NFRC’s Requirements”). Products for which such product certification authorization has been granted (referred to herein as “Authorized Products”) are set forth on Schedule II, which is attached hereto and incorporated herein by reference and which may be supplemented from time to time by an amendment to the

NFRC DOOR MANUFACTURER/PRE-HANGER LICENSE AGREEMENT

Schedule executed by Licensee and NFRC setting forth additional Authorized Products. In addition, if available on NFRC's website, Licensee may revise Schedules I and II on that website in accordance with procedures offered by NFRC. If NFRC does not notify Licensee of any objection to such proposed changes to the Schedule(s) within 30 days after they are made on the website, those Schedule changes shall be deemed approved effective as of the end of that 30 day period.

b. The Registered Mark shall be used with the symbol ® in the manner reflected on Exhibit A hereto which constitutes an integral part of the Registered Mark. The Word Mark shall be used with the symbol "TM".

c. The Registered Mark and Word Mark may be applied by Licensee to Authorized Products by means of the Label or other permanent marking in a form approved from time to time by NFRC and in accordance with the provisions of this Agreement. The affixing of a Label to an Authorized Product by Licensee during the term of this Agreement in accordance with NFRC requirements governing both temporary and permanent Labels and in conformance with this Agreement shall constitute the act of certification of the product, whereupon the Authorized Product shall become a Certified Product.

d. Subject to the terms and conditions of this Agreement, Licensee may use the Word Mark and Registered Mark on printed materials for the purpose of indicating that the door products identified on Schedule II hereto are Certified Products.

3. Prohibited Use.

a. Licensee shall not affix the Word Mark, Registered Mark or Label to, or use the Word Mark, Registered Mark or Label in connection with, any product that has not been manufactured by Licensee at a manufacturing facility listed on Schedule I or is not an Authorized Product; nor shall Licensee use the Word Mark or Registered Mark or Label in any manner not expressly authorized by the Agreement or that could injure or harm the good name or reputation of NFRC. Injury or harm to the good name or reputation of NFRC shall include, but not be limited to, use of the Word Mark or Registered Mark on a Label that sets forth false, misleading or inaccurate information relating to a fenestration product or use of the Word Mark or Registered Mark in a manner that states or implies that a fenestration product is rated or certified in accordance with the Rating System or Certification Program when the product is not, or in any manner that is false, misleading, inaccurate or tends to cause consumer confusion.

b. Licensee's Use of the Registered Mark, Word Mark or Label in any manner prohibited by this Section 3 shall be deemed a material breach of this Agreement and shall be the basis for immediate suspension of Licensee's licensing under the Certification Program or termination of this Agreement pursuant to Section 9.e below.

NFRC DOOR MANUFACTURER/PRE-HANGER LICENSE AGREEMENT

4. Manner of Use.

a. Licensee may adapt the color and size of the Registered Mark according to Licensee's needs, provided that the shape, typeface, legibility and other essential features of the Registered Mark are not altered, and provided that when the Registered Mark is used on a Label affixed to a fenestration product, the size, color, format and content of the Label shall conform to NFRC requirements set forth in the PCP, Appendix B, as amended or interpreted from time to time by NFRC, and in Section 5.j. hereof.

b. Licensee shall obtain the prior written permission of NFRC to reproduce the Registered Mark and Word Mark in its entirety for use on printed materials or in promotion of Certified Products. Licensee shall submit to NFRC at its principal place of business, by a means which provides a record of and receipt for delivery, samples of proposed printed materials using the Registered Mark or Word Mark not fewer than 10 business days prior to the proposed commencement of public dissemination or printing, whichever comes earlier. If NFRC does not contact Licensee to require modification of such proposed printed materials within 10 business days following receipt of such materials by NFRC, Licensee may use such printed materials in the form provided to NFRC. Licensee shall make such modifications as may be required by NFRC in such materials in order to protect NFRC's rights in the Registered Mark and Word Mark and to comply with the legal requirements for use of such marks.

c. Licensee may use such other symbols, trademarks or trade names as are not inconsistent with the nature and purpose of the Word Mark, Registered Mark or Label to identify any Certified Product manufactured by it, provided, however, that no such symbol, trademark or trade name shall be so similar to the Registered Mark, Word Mark or Label as to cause confusion in the minds of consumers of such products and provided further that the Registered Mark and Word Mark shall not be affixed to or issued with respect to any Certified Product in conjunction with any similar quality or certification mark from any other source or authority unless Licensee has first obtained the written permission of the NFRC. Licensee shall not use, reproduce or distribute any of NFRC's copyrighted materials, except as permitted in the CAP and this Agreement.

d. NFRC may adopt such further policies and restrictions on the use of the Word Mark, Registered Mark and Label applicable to NFRC's licensees generally, including such restrictions as are necessary to protect the Registered Mark as a certification mark under applicable law, and Licensee agrees to comply with such policies or restrictions upon notice thereof.

5. **Terms and Conditions.** Licensee agrees to comply with the following terms and conditions:

a. With respect to fenestration products manufactured by Licensee to which the Registered Mark or Label is affixed pursuant to this Agreement, Licensee shall adhere

NFRC DOOR MANUFACTURER/PRE-HANGER LICENSE AGREEMENT

to and comply with all of the provisions of the Certification Program, Rating System, IA Program and applicable provisions of the Accreditation Program, as each may be interpreted, amended or supplemented from time to time by NFRC. Licensee acknowledges and agrees that the terms of the Certification Program, Rating System, IA Program and applicable provisions of the Accreditation Program shall govern this Agreement but that in the event of a conflict, this Agreement shall control. Licensee acknowledges and agrees further that the PCP Certification Program, Rating System, IA Program and applicable provisions of the Accreditation Program may be interpreted, amended or supplemented from time to time by NFRC, and that such interpretations, amendments or supplements may be material. Licensee further agrees that the terms of this Agreement shall be deemed to be modified to incorporate such interpretations, amendments or supplements applicable to NFRC manufacturer licensees generally and that Licensee shall comply with such interpretations, amendments or supplements. In addition to the permitted amendments described above, NFRC may amend any provision of this Agreement in the following manner. NFRC shall give Licensee not less than 30 days prior written notice of the proposed amendment to this Agreement, including the specific language of the proposed amendment. If Licensee does not notify NFRC in writing of its objection to the proposed amendment within 30 days of its receipt of the above-referenced written notice, the proposed amendment shall automatically become effective as of the end of that 30-day period. If Licensee provides a written notice of its objection to the proposed amendment within that 30 day period, the amendment shall not become effective and NFRC may elect to terminate the Agreement upon 60 days prior written notice to Licensee as provided in Section 9(a) below. This Agreement shall not be construed as a commitment by Licensee to manufacture only products that are Authorized Products.

b. Licensee acknowledges and agrees that NFRC shall have the authority to interpret all NFRC procedures, methods and other requirements comprising the Rating System, the Certification Program, IA Program and Accreditation Program and Licensee shall comply with such interpretations.

c. Licensee agrees that the Label will be used only to identify a Certified Product and that the Label, when affixed to a Certified Product, shall be Licensee's guarantee to its customers and to users that the rating and related information set forth on the Label is accurate and that the Certified Product meets NFRC's applicable requirements.

d. Licensee agrees that it shall not affix or cause to be affixed a Label to a door product when the Licensee knows or should know that such Label sets forth a performance rating that is false, deceptive or misleading to a reader, a consumer, the public or a government agency or that indicates conformance with the Rating System or Certification Program when such fenestration product does not so conform.

e. Licensee agrees that Licensee's production operations, quality control

systems and Authorized Products may be inspected for conformance with NFRC Requirements by NFRC or its duly authorized representative, including IA's, and that Licensee shall cooperate fully in the conduct of inspections, reviews and tests in accordance with the provisions of the PCP.

f. Licensee agrees that it shall provide to NFRC and its authorized representatives upon request all information, drawings, specifications, data and other materials underlying any product certification authorization issued to Licensee or any product certification authorization asserted by Licensee by the affixing of an NFRC Label on Licensee's product, including but not limited to a specimen of a Certified Product. Licensee agrees that the foregoing sentence requires that Licensee shall deliver to NFRC or to an NFRC-accredited or federal government-operated laboratory a production line sample of any Certified Product at NFRC's request and that such sample shall be shipped at manufacturer's expense not later than five business days after NFRC makes its request.

g. Licensee agrees that it shall withdraw from the market and cease affixing an NFRC Label to any door product determined by NFRC to have affixed thereto an NFRC Label, which is inaccurate, false or misleading. Licensee acknowledges that in the event Licensee fails to properly perform its duties under this Agreement, NFRC may, but is not required to, place Licensee on probation on terms and conditions deemed appropriate by the NFRC Board of Directors or authorized committee thereof. If Licensee fails or refuses to adhere to all of the terms and conditions of probation deemed appropriate by the NFRC Board of Directors, in its sole discretion, NFRC may elect to suspend or terminate Licensee as provided in Section 10 below.

h. Licensee agrees that it shall not market or sell any door or other fenestration product as a Certified Product if the product is not an Authorized Product and a Certified Product, or if to do so would be inaccurate, false or misleading to the consumer or the public.

i. Licensee acknowledges and agrees that NFRC shall have the right to suspend or revoke Licensee's product certification authorization or licensing to participate in the Certification Program, in accordance with the provisions of the PCP, and shall have the right to suspend or terminate Licensee's license granted hereunder for any breach of this Agreement, which NFRC determines to be material. A material breach shall include but not be limited to any breach related to the dissemination of false or misleading information, whether by labeling or advertising or promotion of a product.

j. Labels.

(i) NFRC shall furnish Licensee with the form of the Label (whether temporary or permanent) in accordance with the provisions of this Agreement and the PCP and Licensee shall pay such fees therefore as may be set forth in the PCP, as amended from time to time. NFRC DOOR MANUFACTURER/PRE-HANGER LICENSE AGREEMENT

(ii) Licensee shall obtain the Label or permission to print or produce the Label exclusively through NFRC or its duly authorized IA.

(iii) Licensee shall use the Label only in accordance with the requirements set forth as to size, format and content by the PCP, Appendix B, as interpreted, amended or supplemented by NFRC from time to time and the other terms and conditions of this Agreement.

(iv) Licensee shall not alter or deface a Label or remove the Labels from the manufacturing facilities listed in Schedule I except as directed by NFRC or its authorized IA.

(v) Labels shall be maintained and used in reasonably clean condition and shall be of a color so as to be clearly legible.

(vi) Labels in Licensee's possession shall be available at all times for inspection by NFRC or authorized representatives of NFRC.

k. In the event that the Registered Mark or Label is affixed to a product that is not an Authorized Product, whether or not inadvertently, Licensee shall not sell or offer for sale such product until the Registered Mark and/or Label has been removed from all such products, whether at Licensee's manufacturing facilities, or in Licensee's wholesale or retail distribution system. In the event that a product so labeled has been listed in the NFRC Certified Products Directory, Licensee agrees that NFRC may publish a notice that such product is not an Authorized Product or Certified Product. In that event, Licensee shall cease any advertising or promotion of any such product as a Certified Product.

6. **Representations and Warranties.** Licensee represents and warrants to NFRC that it has received a copy of and understands the requirements set forth in the Rating System, Accreditation Program and PCP, as interpreted, amended or supplemented at the date hereof. Licensee further represents and warrants that neither Licensee nor its affiliates has any financial interest in any IA or NFRC accredited simulation or testing laboratory

7. **Ownership of Marks.** Licensee acknowledges NFRC's exclusive right, title and interest in and to the Registered Mark and Word Mark and will not at any time do or cause to be done any act or thing contesting or in any way impairing or tending to impair any part of such right, title and interest. In connection with the use of the Registered Mark and Word Mark, Licensee shall not in any way represent that it has any ownership in the Registered Mark and Word Mark. Licensee acknowledges that the use of the Registered Mark and Word Mark shall not create in Licensee's favor any right, title or

interest in or to the Registered Mark or Word Marks other than the license to use such marks hereunder. Upon suspension termination of the license granted hereunder, in any manner provided herein, Licensee shall cease and desist from use on the Registered Mark and Word Mark in any way. Licensee shall not adopt or use, without NFRC's prior written consent, any word or mark which is likely to be similar to or confusing with the Registered Mark and Word Mark.

8. **Assignment of Copyrights.** Licensee assigns to NFRC all copyrights Licensee may own in any written materials Licensee prepared or which were prepared for Licensee that are at any time submitted to NFRC for its consideration, including materials that may be incorporated into any NFRC program or technical documents, whether in written, electronic, or other tangible format (the "Contributions"). Licensee acknowledges that Licensee will have no future rights in any of these Contributions and that NFRC shall own the entire copyright in such Contributions. Licensee certifies that it has the legal right to assign the copyright in such Contributions to NFRC, and that to its knowledge such Contributions are not protected by any copyright or other proprietary rights owned by any other person or entity.

If the cause of such suspension is cured and the suspension is withdrawn in accordance with the provisions of the PCP, this Agreement shall continue in full force and effect.

d. This Agreement shall terminate automatically upon:

(i) Termination of the agreement between Licensee and its designated IA unless, prior to the effective date of that termination, Licensee shall have entered into an agreement with another NFRC approved IA;

(ii) Revocation by NFRC of Licensee's product certification authorization or licensing in accordance with the provisions of the PCP; provided that if revocations occur under this clause and such suspension relates to some but not all products for which product certification authorization has previously been granted, in NFRC's sole discretion, such revocation may be limited by NFRC to those products for which product certification authorization has been revoked.
