Subject: NFRC – LAP Bulletin 2013-01 (Information Only)

This bulletin relates to the publication and implementation of four NFRC 701 series of documents.

Three existing NFRC 701 documents (NFRC 701-2013, 701.02-2013, and 701.09-2013) were revised, and approved by the Board, to incorporate accreditation and inspection procedures for testing laboratories to adhere to for testing TDD’s per the newly implemented VT method per NFRC 203, Procedure for Determining Visible Transmittance of Tubular Daylighting Devices.

One existing NFRC 701 document (NFRC 701.06-2013) was revised, and approved by the Board, to modify language for the reporting of air leakage per NFRC 400.

The documents are published and available as individual documents on the Program Documents page of the NFRC website. NFRC members may download the documents directly from the links below.

- **NFRC 701-2013**, Laboratory Accreditation Program Document.
- **NFRC 701.02-2013**, Testing Laboratory Application.
- **NFRC 701.06-2013**, NFRC 400 Air Leakage Test Reporting Requirements.
- **NFRC 701.09-2013**, Testing Laboratory Accreditation Requirements.

If you have any questions concerning the information in this NFRC LAP Bulletin, please contact Dennis Anderson at 240-821-9514 or Scott Hanlon at 240-821-9519.

NFRC is the recognized leader in energy performance rating and certification programs for fenestration products. Visit NFRC News Now for the latest fenestration-related information.

Make sure NFRC is on your Approved Sender's list to continue receiving bulletins, billings and other important NFRC e-mails.
