

In NODA Region 1, we want to incorporate more ways to connect across campuses to brainstorm, problem solve, discuss and support one another. Our hope is that as you identify campuses that are similar to yours, or campuses that you strive to model your programs after someday, you are able to connect with the folks behind the scenes making things happen! Below you'll find institutions in our region that have provided programming details along with their contact information.

Should you have questions or need support – call or email them. It's that simple!
