**INSURANCE IQ**  
Special Session at ENFINITE Mid-Year Meeting

**Insurance IQ**

*Presented by ENFINITE All-Star Panel*

Industrial liquid recyclers are in a very niche business and have specific insurance needs. No matter if it is workers comp, pollution, vehicle, property or cyber, ENFINITE members rely on insurance to manage their environmental, liability and operation risks to protect their employees, their customers and their company.

At the latest association meeting, members had many questions about various insurance coverages and asked for more information so they can make informed decisions. To serve our members, ENFINITE has put together an all-star panel that will address this to help increase your Insurance IQ.

Some topics that will be explored are:

- **Contracts/Contractual Liability:** Do you know what you are signing?
  - **Additional Insured:** What does this mean?
  - **Employee Leasing:** Why are you doing it, what are your goals and are you accomplishing your goals?
  - What goes into my insurance premium calculation?
  - What can my broker do to help me get better rates/premiums?
  - PFAS: How insurance can minimize your risk.
-
