A Special Message from the NPC Chairperson

To my fellow NPC Members:

These are very uncertain times for all of us. We find ourselves not only protecting our businesses, but even our own health. During this time, I think it is important to let you know how the NPC is prepared to help you through these difficulties. Already, the NPC family has come together to help and support each other. So, I want to be sure you are a part of that community effort amongst fellow plasterers and pool professionals.

The first way we aim to help each other is through our vast network. The NPC represents nearly 600 pool professionals across the country. You can use this vast network to help sort out the many questions we are forced to answer at this time. Questions like, “How do Stay-At-Home orders impact me?”, or “What are some best practices to help keep my employees, crews, and customers safe?” are examples of what we are all facing. However, through the NPC, we don’t have to face it alone.

The next way we intend to help and support your business is in the event your state or locality forces you to shut down, because they do not consider our industry essential. So far, we have not heard of these orders forcing a shutdown of our members’ operations. However, as this crisis intensifies, this may become a greater threat. The NPC is prepared to contact your state or local government to join forces with you to make the case that we are an essential industry. As we have in the past, we will coordinate these efforts with other pool associations.

Lastly, we will want to roll out a communications platform wherein our members can discuss these issues in real time and compare practices and ideas. So, we have set up a dedicated NPC Covid-19 Facebook page for you to view, post, and share your experiences during this time. You can find the page HERE.

Now is the time for us to come together as an industry and help each other through these tough days. I am convinced that together we will come through this in the best possible condition. As always, feel free to contact me or our office with any questions you may have.

Stay safe and healthy.

Very Best Regards,

Yvette Gammon
NPC Chairperson
