

ASSET MANAGEMENT AWARENESS MONTH

All of our assets and property contribute to the overall mission and revenue goals of our organization!

Our professional asset management staff is equipped with:

1

Education and training to help ensure compliance and improve audit results.

2

Strategies to operate more efficiently and reduce costs associated with asset management.

3

Expertise via NPMA certifications which provide quality knowledge through continued professional development.

4

A network of many peer organizations through NPMA to ensure they are abreast of new asset management regulatory changes and best practices.

Contact your asset management professionals when:

- You have ideas for reutilizing existing assets instead of acquiring new ones.
- You need to move or transfer assets.
- You know of assets that require identification.
- You have information about any previously missing assets.
- You know of any idle assets that need to be moved or disposed.

Contact our asset management team:
